

AT A GLANCE

- Founded in April 1982
- IPO on June 23, 1989 (NASDAQ: SYMC)
- 353 on Fortune 500 list
- Approximately 18,500 employees worldwide
- Global Headquarters in Mountain View, Calif.
- More than 1000 global patents

FISCAL YEAR 2010 (ENDED APRIL 2, 2010)

FY 2010

Revenue \$6.0 billion*

Consumer

Revenue \$1.9 billion

Enterprise

Revenue \$4.1 billion

Revenue by Geography:

Americas 54%

EMEA 31%

APJ 15%

* Non-GAAP revenues

CORPORATE EXECUTIVES

Enrique Salem,
*President and
Chief Executive Officer*

James Beer,
*Executive Vice President
and Chief Financial Officer*

Mark Bregman,
*Executive Vice President and
Chief Technology Officer*

CORPORATE OVERVIEW

Information is the lifeblood of today's connected world. It plays a critical role in our personal lives and drives our businesses. Each year, the amount of information we create – from digital photos to business critical data – increases exponentially. Securing and managing our information, and the identities to access that information, becomes even more important and challenging.

Symantec™ is a global leader in providing security, storage and systems management solutions to help our customers – from consumers and small businesses to the largest global organizations – secure and manage their information and identities independent of device. Symantec does this by bringing together leading software and cloud solutions that work seamlessly across multiple platforms, giving customers the freedom to use the devices of their choice and to access, store and transmit information anytime, anywhere.

GLOBAL PRESENCE

Symantec is committed to delivering global solutions that meet local needs. To do that, we have operations in more than 40 countries, including research and development facilities and 24x7 Security Operations Centers and Security Response Labs located around the world. Symantec has established some of the most comprehensive sources of Internet threat data in the world through the Symantec Global Intelligence Network. This network captures worldwide security intelligence data that gives Symantec analysts unparalleled sources of data to identify and analyze, to deliver protection and provide informed commentary on emerging trends in attacks, malicious code activity, phishing and spam.

SOFTWARE AND SERVICES PORTFOLIO

Our market-leading solutions help customers ensure that their information is secure and well-managed.

Symantec's Norton™ brand of award-winning Consumer Products for individual users, home offices and small businesses focus on delivering online protection for our customers, their systems and the things they value most – photos, documents, videos, and music – without compromising system performance. Our Norton brand of products and services range from Internet security and backup and recovery solutions to PC tune-up and PC help services.

- Consumer Endpoint Security (#1 market position¹)

Symantec Security and Compliance focuses on providing organizations of all sizes with solutions for endpoint security and management, data loss prevention, encryption and authentication. Our standardized security and management solutions ensure that information, identities, infrastructure and processes can be protected, managed and controlled across physical and virtual platforms.

- Endpoint Security (#1 market position², Positioned in Leader's Quadrant in Gartner Magic Quadrant³)
- Messaging Security (#1 market position⁴, Positioned in Leader's Quadrant in Gartner Magic Quadrant leader⁵)
- Policy & Compliance (#1 market position⁶)
- Data Loss Prevention (#1 market position⁷, Positioned in Leader's Quadrant in Gartner Magic Quadrant⁸)
- Security Management (#1 market position⁹)
- Security Information & Event Management (SIEM) (Positioned in Leader's Quadrant in Gartner Magic Quadrant¹⁰)
- Endpoint Management (Positioned in Leader's Quadrant in Gartner Magic Quadrant¹¹)
- Mobile Data Protection (Positioned in Leader's Quadrant in Gartner Magic Quadrant¹²)
- SSL Certificates (#1 market position¹³)

Symantec Storage and Availability Management focuses on providing organizations with storage management and high availability as well as data protection solutions across heterogeneous storage and server platforms.

- Email Archiving (#1 market position¹⁴, Positioned in Leader's Quadrant in Gartner Magic Quadrant¹⁵)
- Storage Infrastructure Software (#1 market position¹⁶)
- Core Storage Management Software (#1 market position¹⁷)
- Data Protection (#1 market position¹⁸)

Symantec Global Services offers deep technical knowledge and expert resources including Managed Services¹⁹, Enterprise Support and Education Services. With an expert staff of professionals and an extensive partner network, we help customers address information security, availability, storage, and compliance challenges from the endpoint to the data center.

CORPORATE RESPONSIBILITY

Symantec is committed to fulfilling our core purpose of securing and managing your information and identities with full attention to and respect for ethical operation, the environment, and positive societal impact. Symantec is vigilant in maintaining strong governance and ethics policies and procedures. We encourage energy conservation and waste reduction throughout our operations and also provide software and services to help customers manage their own energy and emissions impacts.
